Engine:		Cabin:	Day Cab

Other Spec

Reg: AGR 267 - Chassis: 12B/1494206 , Date of Registration 18/10/1949, This lovely little Leyland Beaver starts just as she should and is a nice little running lorry ready for shows. We have been for a drive in her and she is great fun. She has a current V5 and is MOT exempt although we have put her through the workshop to check her over. Ideal for a collector or to be used as a promotional vehicle. The whole concept of purchasing a commercial for private classic motoring combined with its advertising potential is one we have enjoyed for many years and proved to be an enormous success. Without doubt the most economical and successful form of advertising., Any inspection welcome, delivery can be arranged.
